Inventory for FOIA Request 1998-0001-F

Records on United States Information Agency (USIA)

Extent

518 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, February 1998. Previously restricted materials are added as they are released.

Scope and Content

FOIA 1998-0001-F contains materials from agencies and individuals including the United States Information Agency (USIA) which is responsible for the U.S. government's overseas information and cultural programs; and the Voice of America (VOA) and Radio Marti, which are programs under the jurisdiction of the USIA. During the Bush Administration, the directors of the USIA were Bruce Gelb and Henry Catto.

The White House Office of Records Management (WHORM) Alphabetical Files contain letters from the general public concerning USIA policies, and several notes between Bruce Gelb and President and Mrs. Bush.

The WHORM Subject File categories contain correspondence; memoranda; news clippings; and brochures from the general public, Congress, and the Bush administration. WHORM Subject File FG298 concerns the USIA, including personnel matters, budgets, polling data from foreign countries, and the U.S. involvement in the 1992 World Exposition. WHORM Subject File FG298-01 contains material related to the Voice of America including personnel matters, Radio Marti, reduction of broadcasts, and VOA's role in the Serbo-Croatian dispute. Letters from Congress and the public as well as some internal memoranda are present.

The Staff and Office Files contain correspondence, memoranda, and publications maintained by individual staff members and offices. The files of Doug Adair, a White House contact for USIA, consist of memos from USIA Director Bruce Gelb concerning suggestions and information on USIA programs. Office of National Service Miscellaneous Files includes a transcript of a speech by Director Henry Catto in which he discusses the role of volunteers in USIA's International Visitors Program. Throughout the staff files are USIA brochures, reports, and information concerning Administration officials who were interviewed for USIA media programs. Vernon Parker files include reports from Radio Marti's Advisory Council. Media Affairs Miscellaneous Files contains results of a USIA survey of foreign nations concerning the Gulf War and reports of the Iraqi disinformation campaign (ca. Jan–Feb. 1991). Additional Gulf War information is included in Ed Goldstein's files, including a summary of each nation's actions toward Iraq as of October 1990.

System of Arrangement

Records that are responsive to this FOIA request were found in seven collection areas—Bush Presidential Records: WHORM Alphabetical Files; Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: Staff and Office Files; Bush Vice Presidential Records: Staff and Office Files; Quayle Vice Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 1998-0001-F.
