Inventory for FOIA Request 1998-0072-F

Records on Microsoft and Computers

Extent

46 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, March 1998. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 1998-0072-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 1998-0072-F contains letters, memoranda, reports, and printed material related to computers and computer technology. Materials in the collection documents the purchase, use, and maintenance of White House computers; technology transfer; the commercialization of technology; and technology in education. Most of the materials are of a highly routine nature and are open. No information about Bill

Gates or the development of Microsoft was discovered for this FOIA request.

System of Arrangement

Records that are responsive to this FOIA request were found in two collection areas—Bush Presidential Records: Staff and Office Files and Bush Vice Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of documents and folders processed in response to FOIA 1998-0072-F.

Bush Presidential Records: Staff and Office Files

Cabinet Affairs, White House Office of
Casse, Daniel, Files

Computers [OA/ID 07122]
Technology and Environment [OA/ID 07130]
