Inventory for FOIA Request 1998-0101-F

Records on Somalia—U.S. Military Intervention: “Operation Restore Hope”

Extent

62 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush’s presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, April 1998. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 1998-0101-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 1998-0101-F contains materials from agencies and individuals related to Presidential and NSC decision-making regarding United States military intervention in Somalia, known as “Operation Restore Hope”.

White House Office of Records Management (WHORM) Subject File categories contain primarily correspondence concerning the crisis in Somalia and US efforts there.

The WHORM Alphabetical Files contain letters from the general public concerning the crisis in Somalia and US efforts there.

The Staff and Office Files consist primarily of memoranda, minutes, and cables. A large proportion of the records processed in response to this request have been closed in accordance with the Presidential Records Act (PRA) due to the nature of advice documented and security classifications. Although many National Security Council (NSC) files are listed, the only types of materials that remain open are routine press statements and fact sheets that were distributed to NSC staffers. However, please note that the closed material is quite relevant and may prove a valuable resource in the future once restrictions of both the PRA and national security have expired.

System of Arrangement

Records that are responsive to this FOIA request were found in three collection areas—Bush Presidential Records: WHORM Alphabetical Files; Bush Presidential Records: WHORM Subject Files; and Bush Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level; whereas, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.
