Inventory for FOIA Request 1998-0142-F

Records on NATO Heads of State Summit at Rome: November 7–8, 1991

Extent

123 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, June 1998. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 1998-0142-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 1998-0142-F contains materials primarily relating to the NATO Heads of State summit at Rome on November 7-8, 1991. The requestor specifically desired to study the NATO Strategic Concept presented at that summit. In addition to the Rome Summit, this FOIA request concerns other summits and meetings at which the Rome Summit and/or the Strategic Concept may have been mentioned. A large proportion of the records processed in response to this request have been closed in accordance with the Presidential Records Act (PRA) due to the nature of advice documented and security classifications. These consist primarily of briefing materials, cables and memoranda. Although many National Security Council (NSC) files are listed, the only types of materials that remain open are routine press statements and fact sheets distributed to NSC staffers. Please note, however, that the closed materials may prove a valuable resource in the future once restrictions of the PRA and national security have expired.

The structure of this finding aid is somewhat disjointed; this arises from an effort to group the materials from given summits together for the researchers' ease and comparison. The Rome Summit information is listed first since it is the main subject of the request. The other parts of the request are listed here in chronological order. Two of the sub-topics listed in the request (the 3/91 French decision to participate in NATO's Strategy Review Group and the 5/20/91 meeting between Secretary of State Baker and Foreign Minister Genscher) are not addressed below due to the lack of responsive records.

System of Arrangement

Records that are responsive to this FOIA request were found in three collection areas—Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: Staff and Office Files; and Quayle Vice Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open. A "***" indicates files or documents that were incidentally processed as part of this FOIA request.

The following is a list of documents and folders processed in response to FOIA 1998-0142-F.
