Inventory for FOIA Request 1998-0205-F

Records on Presidential Appointment of Federal Judges

Extent

1100 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, September 1998. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 1998-0205-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 1998-0205-F regards the appointment of federal judges by the President. The FOIA is comprised of three distinct segments, each of which provides information about the appointment process during the Bush administration. The first set of records consists of the White House Office of Records Management

Subject File categories FG050 through FG062. These categories concern the federal courts, including the Supreme Court, and were processed systematically. Complete finding aids are available for each of the categories. No further discussion of these materials will be presented here.

The second segment consists of files created by Lee S. Liberman, Associate Counsel to the President, and arranged by federal district courts and federal circuit courts. These files contain photocopies of many of the materials available in FG050 through FG062. The files are comprised of letters of recommendation, resumes, letters of nomination, press releases, and public mail relating to the selection of judges for the district or circuit courts. Also included in the files are nomination packets which contain recommendations to the President, the formal nomination documents, and information about each nominee. Supporting materials include reports on nominees' judicial decisions, as well as writing samples such as legal opinions. Letters of recommendation and resumes, by far, comprise the bulk of these materials. Also related to these materials are records concerning nominations to the Supreme Court. These files document the process of identifying and selecting candidates for the Supreme Court. Although mostly closed under Presidential Records Act and Freedom of Information Act restrictions, memoranda and lists provide information about possible nominees, the criteria used to select nominees, and background materials about each nominee.

The third and final segment of this FOIA request consists of files maintained by Lee S. Liberman on nominees. Arranged alphabetically, the files pertain mostly to federal court nominees but also include some materials on United States Marshall nominees and other miscellaneous federal positions. The files include letters of recommendation, resumes, and the formal nomination documents. Most of the materials are photocopies. Additionally, the records include reports analyzing and discussing judicial decisions made by the nominees. Copies of legal opinions and law review articles by the nominees are also often included in the files.

System of Arrangement

Records that are responsive to this FOIA request were found in two collection areas—Bush Presidential Records: WHORM Subject Files and Bush Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 1998-0205-F.
