Inventory for FOIA Request 1998-0207-F

Records on Clarence Thomas: Supreme Court Nomination

Extent

1,414 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, April–June 1998. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 1998-0207-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 1998-0207-F contains materials related to Clarence Thomas and his nomination by President Bush to be an Associate Justice of the United States Supreme Court. The bulk of this FOIA covers the time period from the nomination of Judge Thomas in July 1991 to the confirmation of Thomas as an Associate

Justice of the Supreme Court in October 1991.

The materials within this FOIA include newspaper clippings; review and analysis of decisions of Clarence Thomas while he served on the U.S. Court of Appeals and as chairman of the EEOC; memoranda; correspondence; transcripts of Senate testimony; speeches of Clarence Thomas between 1981 and 1989; and biographical information on Clarence Thomas.

In addition, within the Bush Presidential Staff and Office Files there are two very large and noteworthy collections of material dealing with the confirmation process. The first consists of 184 video tapes of the confirmation hearings between 9/10/91 and 10/16/91. The second is a large collection of documents requested by the Senate Judiciary Committee in the course of their investigation into Clarence Thomas' background.

System of Arrangement

Records that are responsive to this FOIA request were found in five collection areas—Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: WHORM Alphabetical Files; Bush Presidential Records: Staff and Office Files; Bush Vice Presidential Records: Staff and Office Files; and Quayle Vice Presidential Records: Staff and Office Files. As policy, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. WHORM Subject and WHORM Alphabetical Files are processed at the document level. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 1998-0207-F.
