Inventory for FOIA Request 1998-0251-F

Records on Budget Negotiations, 1989–1990 Between the Bush Administration and Congress

Extent

395 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and Dan Quayle's vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, June 1998. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 1998-0251-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 1998-0251-F contains materials related to the budget negotiations between the Bush Administration and Congress which took place from 1989 to 1990. This time period includes the Bipartisan Budget Agreement, the 1990 Budget Summit, and the Omnibus Budget Reconciliation Act of 1990. The materials

consist of correspondence, published articles, and routine memoranda between the public, Congress, and the White House.

System of Arrangement

Records that are responsive to this FOIA request were found in three collection areas—Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: Staff and Office Files and Quayle Vice Presidential Records: Staff and Office Files. As policy, WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.

Please note that a double asterisk "**" indicates material that was incidentally processed and is not relevant to the subject of the FOIA request.

The following is a list of documents and folders processed in response to FOIA 1998-0251-F.

Bush Presidential Records: WHORM Subject Files

Category	Case Number
