Inventory for FOIA Request 1999-0062-F

Records on Negotiating the North American Free Trade Agreement (NAFTA)

Extent

332 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, March 1999. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 1999-0062-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 1999-0062-F contains material related to the Bush Administrations role in negotiating the North American Free Trade Agreement (NAFTA) with Mexico and Canada. This request contains correspondence from many members of the Administration, members of Congress, and concerned trade and industry groups. The material consists of memoranda, reports, cables, letters, newspaper clippings, and assorted other material. Many of the Subject File documents and Staff Files deal with the domestic aspects of NAFTA, including the environmental impact of NAFTA and the effects of a free trade agreement on US agricultural interests, the US textile industry, and other US industries. Some of these files also contain material the Administration compiled for release to inform the public about the advantages of NAFTA. The files from the National Security Council (and, to a lesser extent, the files of the Council of Economic Advisers) cover more international aspects of NAFTA, including memoranda of conversation between US, Mexican, and Canadian officials and studies of the state of Mexican political and economic affairs. It should be noted that most of these records are closed for national security reasons. Due to the restrictions of the Presidential Records Act and the Freedom of Information Act all decision making correspondence and memoranda have been removed

System of Arrangement

Records that are responsive to this FOIA request were found in four collection areas—Bush Presidential Records: WHORM Alphabetical Files; Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: Staff and Office Files; and Quayle Vice Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 1999-0062-F.

Bush Presidential Records: WHORM Alphabetical Files
