### **Inventory for FOIA Request 1999-0093-F**

## **Records on National Space Policy Reagan and Bush Administrations**

#### **Extent**

1,027 folders

#### **Access**

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### **Copyright**

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Provenance**

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### **Processed By**

Staff Archivists, May 1999. Previously restricted materials are added as they are released.

#### **Scope and Content**

The materials in FOIA 1999-0093-F are a selective, not necessarily all-inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 1999-0093-F contains material related to the national space policy during the Reagan and Bush Administrations. This includes records on the space shuttle, the Space Station, international space cooperation, and the President's Space Exploration Initiative (which called for a moon / Mars mission). A

large segment of this request consists of the Quayle Vice Presidential Records of the National Space Council, of which Vice President Quayle was the head and Mark Albrecht the Executive Secretary (succeeded by Brian Dailey in 1992). Included in this request are the Bush Presidential Records WHORM Subject File categories for the National Aeronautics and Space Administration (FG185) and the National Space Council (FG467). Material consists of published articles and reports, routine internal memoranda, and correspondence from the public, Congress, and administration officials.

A significant amount of material responsive to this FOIA is contained in the files of the National Security Council (NSC). Although these files are listed, it should be noted that most of these documents are security classified and have been closed under the restrictions of the Presidential Records Act and the Freedom of Information Act. These documents deal with topics such as international space cooperation, space launched vehicles, and national security issues.

### **System of Arrangement**

Records that are responsive to this FOIA request were found in seven collection areas—Bush Presidential Records: WHORM Alphabetical Files; Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: Staff and Office Files; Bush Vice Presidential Records: Name Files; Bush Vice Presidential Records: WHORM Subject Files; Bush Vice Presidential Records: Staff and Office Files; and Quayle Vice Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level; that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at [http://bushlibrary.tamu.edu/research/finding\\_aids/whorm/](http://bushlibrary.tamu.edu/research/finding_aids/whorm/).

Please note that a single asterisk "\*" indicates that the category is entirely processed and open.

Please note that a \*\* indicates files or documents that were incidentally processed as part of this FOIA request.

The following is a list of documents and folders processed in response to FOIA 1999-0093-F.
