Inventory for FOIA Request 1999-0128-F

Records on the United Nations Conference on Environment and Development (UNCED) Also referred to as the Earth Summit, held at Rio de Janeiro, Brazil in June 1992

Extent

205 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, May 1999. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 1999-0128-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 1999-0128-F contains materials material relating to the United Nations Conference on Environment and Development (UNCED), also referred to as the Earth Summit, held in Rio de Janeiro in June of 1992. Of these materials, approximately 2300 pages have been closed in whole or part. The materials consist primarily of correspondence, memoranda, and drafts. Subjects addressed include Summit attendance, climate change, global warming, international agreements, and implementation of environmental measures.

The documents in the WHORM Subject File are primarily letters. Some urge President Bush to attend the Summit while others suggest that he not attend. Correspondence also includes suggestions about priorities and points to be addressed at the Summit. The request also includes several sets of letters from schoolchildren concerned about the future of the environment and asking Bush to attend the Summit.

While records pertaining to the actual Summit (trip schedules and briefing materials about Rio) can be found in the staff files, most of the records in this request are either planning or follow-up documents. Many of the planning documents are drafts of chapters comprising Agenda 21, a major policy document resulting from the Summit. A final, advance draft of Agenda 21 can be found in the files of Jeffrey Holmstead as can chapter drafts. Teresa Gorman's files also include drafts. These drafts were written for international meetings, called PrepComs, held to prepare for UNCED. These drafts have been heavily redacted due to the Presidential Records Act (PRA) restriction on confidential advice, but they still demonstrate the development of various Agenda 21 chapters.

System of Arrangement

Records that are responsive to this FOIA request were found in four collection areas—Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: Staff and Office Files; Bush Vice Presidential Records: Staff and Office Files and Quayle Vice Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 1999-0128-F.
