### Inventory for FOIA Request 1999-0273-F

## Records on the Malta Conference: December 1989

#### Extent

127 folders

#### Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### Processed By

Staff Archivists, September 1999. Previously restricted materials are added as they are released.

#### Scope and Content

The materials in FOIA 1999-0273-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 1999-0273-F contains materials on the meeting between President Bush and President Mikhail Gorbachev in Malta (December 2–3, 1989) and the subsequent meetings between President Bush and NATO leaders in Brussels, Belgium (December 3–4, 1989). The Malta Conference (technically not a Summit) was the first meeting between the two leaders since President Bush's inauguration. The NATO

meeting was held in order for President Bush to brief leaders of Western European nations concerning his meeting with Gorbachev.

A significant amount of material responsive to this FOIA is contained in the files of the National Security Council (NSC). Although these files are listed, it should be noted that most of these documents are security classified and have been closed under the restrictions of the Presidential Records Act and the Freedom of Information Act.

The White House Office of Records Management (WHORM) Subject Categories consist primarily of routine transmittal memoranda between staff members passing along the following types of documents (as well as the documents themselves): talking points for the president's summit sessions and meetings with world leaders; draft remarks for arrival ceremonies and summit sessions; summit meeting agendas; press releases; position papers on topics of interest to NATO member countries and U.S. global leadership; and briefing book papers.

The Staff and Office Files records primarily consist of schedules and itineraries for travel to the summit. Additionally, the materials contain routine transmittal memoranda for and including the following types of documents: meeting schedules and agendas, speech/remark drafts, press releases and a limited amount of background information pertaining to the countries which the president visited during his trip. These records also contain standard logistical information relating to travel, lodging, and media members to be included in the press pool during the trip.

### **System of Arrangement**

Records that are responsive to this FOIA request were found in two collection areas—Bush Presidential Records: WHORM Subject Files; and Bush Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "\*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 1999-0273-F.

### **Bush Presidential Records: WHORM Subject Files**
