Inventory for FOIA Request 1999-0461-F

Records on Iraq: Not Directly Related to the Persian Gulf Conflict

Extent

177 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, February 2000. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 1999-0461-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA request 1999-0461-F contains information on Iraq not directly related to the Persian Gulf conflict. Most of the documents contain information on Iraqgate, a scandal concerning U.S. financial and trade relations with Iraq prior to the war.

The Staff and Office Files contain correspondence, memoranda, and publications maintained by individual staff members and offices. From 1990–1992, congressional committees headed by Sam Gejdenson, Henry Gonzalez, and Jack Brooks conducted investigations into alleged misconduct by administration officials when implementing U.S. policies toward Iraq immediately prior to the outbreak of hostilities. Specifically, the committees examined three areas of U.S.-Iraqi policy. First, they examined the relationship of the Bush administration to the Banco Nazionale di Lavoro (BNL) and the bank's role in providing credits to Iraq for the purchase of food and military hardware. Second, the congressional committees investigated the role of the Department of Agriculture in providing food credits to Iraq during 1989 and 1990. Finally, Congress examined U.S. nonproliferation policy for Iraq, especially the use of export controls and potential violations of those controls by U.S. government officials.

Most of the correspondence, memoranda, reports, cables, telegrams, and intelligence briefings subpoenaed by Congress for the Iraqgate investigation are included in this FOIA. This FOIA also contains declassified documents concerning chemical and biological weapons proliferation. In addition to these are Bush administration documents discussing potential responses to the congressional subpoenas, specifically the possibility of invoking executive privilege over certain documents and potential conflict of interest violations among senior Bush administration officials. Please note that some documents provided to the congressional committees originated during the Reagan administration.

Also, please note several boxes of letters from American citizens concerning the Persian Gulf War. These letters do not concern the Congressional investigations but rather focus on U.S. policy toward Iraq after the Iraqi invasion of Kuwait during August 1990.

System of Arrangement

Records that are responsive to this FOIA request were found in one collection area—Bush Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level; whereas, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

The following is a list of documents and folders processed in response to FOIA 1999-0461-F.
