Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivist, January 2000. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 1999-0471-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 1999-0471-F contains materials related to the Paris Economic Summit of July 14–16, 1989. It was also known as the G-7 Summit, the annual meeting of the leaders of seven developed nations (the United States, France, the United Kingdom, the Federal Republic of Germany, Italy, Canada, and Japan). It

consists of routine correspondence, published articles, and White House memoranda. A significant amount of material responsive to this FOIA is contained in the files of the National Security Council (NSC). Although these files are listed, it should be noted that most of these documents are security classified and have been closed under the restrictions of the Presidential Records Act and the Freedom of Information Act. However, the files closed under the Presidential Records Act only are in the process of opening.

White House Office of Records Management (WHORM) Subject File categories contain correspondence; memoranda; news clippings; and brochures from the general public, Congress, and the Bush administration. WHORM Subject File FO006-02 concerns the Paris Economic Summit.

The Staff and Office Files contain correspondence, memoranda, and publications maintained by individual staff members and offices. A significant amount of material responsive to this FOIA is contained in the files of the National Security Council (NSC).

System of Arrangement

Records that are responsive to this FOIA request were found in two collection areas—Bush Presidential Records: WHORM Subject Files and the Bush Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 1999-0471-F.
