Scope and Content

The materials in FOIA 2000-1205-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2000-1205-F contains selected telephone conversations between President Bush and other world leaders, as well as the Cabinet Meeting held on September 4, 1991. The conversations took place on the days of August 19 (major world leaders), August 20 (Boris Yeltsin), August 21 (Yeltsin and John Major), October 8 (Yeltsin), and December 25, 1991 (Gorbachev). Most of these conversations were processed with FOIA case numbers 1999-0303-F (August Soviet Coup) and 1999-0304-F (Collapse of the Soviet Union).

White House Office of Records Management (WHORM) Subject File categories contains internal memorandum, agendas, and talking points.

The Staff and Office Files contain selected telephone conversations between President Bush and other world leaders, as well as the Cabinet Meeting held on September 4, 1991. The conversations took place on the days of August 19 (major world leaders), August 20 (Boris Yeltsin), August 21 (Yeltsin and John Major), October 8 (Yeltsin), and December 25, 1991 (Gorbachev). Most of these conversations were processed with FOIA case numbers 1999-0303-F (August Soviet Coup) and 1999-0304-F (Collapse of the Soviet Union). The types of documents include internal memorandum, agendas, and talking points. A significant amount of material responsive to this FOIA is contained in the files of the National Security Council (NSC). Although these files are listed, it should be noted that most of these documents are security classified and have been closed under the restrictions of the Freedom of Information Act.

System of Arrangement

Records that are responsive to this FOIA request were found in two collection areas—Bush Presidential Records: WHORM Subject Files and Bush Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level; whereas, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.
