### Inventory for FOIA Request 2000-1251-F [2]

## Records on Indian Affairs

#### **Extent**

306 folders

#### **Access**

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### **Copyright**

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Provenance**

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### **Processed By**

Staff Archivist, April 2002. Previously restricted materials are added as they are released.

#### **Related Collections**

Related documents may be found in FOIA request 2000-1251-F [1] entitled, "Indian Files of Intergovernmental Affairs."

#### **Scope and Content**

The materials in FOIA 2000-1251-F [2] are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2000-1251-F [2] contains materials on federal Native American/Indian policy. These records consist of incoming letters, memoranda, forms and printed material. Letters include public and congressional mail and outgoing form letters concerning White House appointments related to Native American/Indian policy. Memoranda documents include routine correspondence between Intergovernmental Affairs, the Department of the Interior, and other governmental agencies. Appointment memorandums, personal data statements, and resume forms are from the Indian Gaming Commission, the National Advisory Council on Indian Education, the Joint Federal-State Commission on Policies and Programs Affecting Alaska Natives, and the White House Conference on Indian Education. Printed material included news clippings and articles, reports and summaries from various Native American/Indian/Alaska Native boards and commissions, and presidential proclamations.

White House Office of Records Management (WHORM) Subject File categories contain correspondence; memoranda; news clippings; and brochures from the general public, Congress, and the Bush administration.

The Staff and Office Files contain correspondence, memoranda, and publications maintained by individual staff members and offices. These records consist of public congressional mail and outgoing form letters concerning White House appointments related to Native American/Indian policy. Memoranda documents include routine correspondence between Intergovernmental Affairs, the Department of the Interior, and other governmental agencies. Appointment memorandums, personal data statements, and resume forms are from the Indian Gaming Commission, the National Advisory Council on Indian Education, the Joint Federal-State Commission on Policies and Programs Affecting Alaska Natives, and the White House Conference on Indian Education. Printed material included news clippings and articles, reports and summaries from various Native American/Indian/Alaska Native boards and commissions, and presidential proclamations.

### **System of Arrangement**

Records that are responsive to this FOIA request were found in four collection areas—Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: Staff and Office Files; Bush Vice Presidential Records: Staff and Office Files; and Quayle Vice Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level; whereas, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "\*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 2000-1251-F [2].
