Scope and Content

The materials in FOIA 2000-1335-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2000-1335-F contains memorandum of conversations that took place between President Bush and various Hungarian officials during the President's trip to Hungary in July 1989. These officials include

Hungarian President Bruno Straub, Prime Minister Miklos Nemeth, and Minister Imre Poszgay.

A significant amount of material responsive to this FOIA is contained in the National Security Council (NSC). Although these files are listed, it should be noted that most of these documents are security classified and have been closed under the restrictions of the Freedom of Information Act.

System of Arrangement

Records that are responsive to this FOIA request were found in one collection area—Bush Presidential Records: Staff and Office Files. As policy, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of documents and folders processed in response to FOIA 2000-1335-F.
