96 folders, approximately 6,838 pages

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivist, October 2002. Previously restricted materials are added as they are released.

Related Collections

Related material may be found in FOIA request 2001-1865-F entitled "Records on Clean Air Act: Selected Files of Jeffrey Holmstead."

Scope and Content

The materials in FOIA 2001-1978-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2001-1978-F contains materials on the Clean Air Act Amendments (CAAA) of 1990 and other environmental issues including endangered species and protection of American wetlands. This request also includes materials on the reauthorization of the Office of Information and Regulatory Affairs (OIRA).

The Staff and Office Files contain incoming letters, memoranda, reports, and printed material. Letters include routine correspondence from organizations such as the Environment Defense Fund, the Clean Air Working Group, National Environmental Development Association, and the National Association of Manufacturers supporting or opposing specific provisions of the CAAA. The routine correspondence consists of correspondence between the staff in the Office of the Management and Budget (OMB), Environmental Protection Agency (EPA), and other departments and congressional committees containing information requests. Memoranda discuss the implementation and enforcement of the provisions of the CAAA; and drafts of different legislative rules responsive to CAAA, their notices in the Federal Registry, and public comments responsive to these notices. The reports compare the House and Senate CAAA and OIRA reauthorization bills, and the Bush Administration's proposals based on detailed side-by-side cost analyses. Included are papers on topics such as the Endangered Species Act and its economic effect, the evolution of the federal environmental policy, and climate change, which are all published by various organizations, such as the Cato Institute and the Heritage Foundation. Printed materials include news clippings, articles, and editorials from various sources such as the *Washington Post*, the *New York Times*, the *Los Angeles Times*, and the *Wall Street Journal* concerning environmental legislative proposals, President Bush's record on the environment, government regulation, and the Competitiveness Council.

In addition, this FOIA request also contains speeches delivered by President Bush, EPA Administrator, William Reilly, and the Assistant Administrator for Air and Radiation, William Rosenberg, concerning the administration's environmental agenda. The press releases and fact sheets were issued by the White House, the Department of the Interior, and the EPA dealing with Bush administration initiatives and accomplishments on the environment and regulatory reform.

System of Arrangement

Records that are responsive to this FOIA request were found in one collection area—Bush Presidential Records: Staff and Office Files. As policy, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of documents and folders processed in response to FOIA 2001-1978-F.
