Related Collections

Scope and Content

The materials in FOIA 2002-1482-F[1] are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2002-1482-F[1] contains George Bush Presidential materials related to entertainer Bob Hope. This

request is primarily comprised of letters and memoranda to President George Bush inviting him and First Lady Barbara Bush to attend and/or address events hosted by Mr. Hope in honor of United States military personnel (the schedules, itinerary, and guest information relating to these events are also included). Similar requests are included which were made for events in honor of Mr. Hope or raising funds for the several charitable and philanthropic organizations with which he was involved. Much of the direct correspondence between President Bush and Mr. Hope that was included in the request are personal records and have been closed accordingly.

The White House Office of Records Management (WHORM) Alphabetical Files contain letters from Paul M. Allen, Phillip Bretz, Mike Fritschen, and Bob Hope.

The WHORM Subject File categories contain memoranda to President George Bush inviting him and First Lady Barbara Bush to attend and/or address events hosted by Mr. Hope in honor of United States military personnel (the schedules, itinerary, and guest information relating to these events are also included.)

The Staff and Office Files contain correspondence, memoranda, and video regarding events in honor of Mr. Hope or raising funds for the several charitable and philanthropic organizations with which he was involved.

System of Arrangement

Records that are responsive to this FOIA request were found in three collection areas—Bush Presidential Records: WHORM Alphabetical Files; Bush Presidential Records: WHORM Subject Files; and Bush Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level; whereas, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.
