#### Related Collections

#### Scope and Content

The materials in FOIA 2002-1482-F[2] are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2002-1482-F[2] contains George Bush Vice Presidential materials related to entertainer Bob Hope. This request is primarily comprised of letters and memoranda to President George Bush inviting him and

the First Lady to attend and sometimes address events hosted by Mr. Hope in honor of United States military personnel (the schedules, itinerary, and guest information relating to these events are also included). Similar requests are included which were made for events in honor of Mr. Hope or raising funds for the several charitable and philanthropic organizations with which he was involved. Much of the direct correspondence between President Bush and Mr. Hope included in the request are personal records and have been closed accordingly.

The Bush Vice Presidential Name File contains a letter from Bob Hope.

The Bush Vice Presidential Subject File categories contain memoranda to President George Bush inviting him and the First Lady to attend and address events hosted by Mr. Hope in honor of United States military personnel (the schedules, itinerary, and guest information relating to these events are also included.)

The Vice Presidential Staff and Office Files contain correspondence, memoranda, and video regarding events in honor of Mr. Hope or raising funds for the several charitable and philanthropic organizations with which he was involved.

### **System of Arrangement**

Records that are responsive to this FOIA request were found in three collection areas—Bush Vice Presidential Records: Name Files; Bush Vice Presidential Records: WHORM Subject Files; and Bush Vice Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level; whereas, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "\*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 2002-1482-F[2].
