### Inventory for FOIA Request 2003-0256-F

## Records from Selected Sara DeCamp Files: Correspondence from various Middle Eastern related Interest Groups

#### Extent

97 folders, approximately 875 pages

#### Access

Collection is open to all researchers. Access to Bush Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### Processed By

Staff Archivists, March 2006. Previously restricted materials are added as they are released.

#### Related Collections

Related collections may be found in the Office of Presidential Advance and Scheduling, the White House Press Office, and the White House Office of Records Management (WHORM) categories HU (Human Rights), RM (Religious Matters), TR (Trips), and WH (White House Administration). Related series may be found in additional series of the Office of Public Liaison, such as the Kathy Jeavons Files, the Windy White Files, and the James Schaefer Files.

#### Scope and Content

The materials in FOIA 2003-0256-F are a selective, not necessarily all inclusive, body of documents

responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2003-0256-F contains material related primarily to correspondence made between various interest groups and Sara DeCamp, Assistant Director at the White House Office of Public Liaison.

These selected White House Staff and Office Files relate exclusively to requests made by various interest groups to the White House Office of Public Liaison for presidential messages from President Bush for various awardees related to several different interest groups. Materials include biographies, correspondence letters between various White House offices, letters from various interest groups requesting a presidential message, drafts and acknowledgement letters (presidential messages) on behalf of President Bush that were distributed by the Office of Presidential Messages, memorandum, notes, fax cover sheets, newsletters and brochures, press releases, and newspaper clippings. The newspaper clippings, brochures, and press releases are usually related to the individual interest groups and were provided in their individual requests for a Presidential Message and were thought necessary for providing background information to the White House staff. Interest groups also sometimes included past presidential messages to show that they had previous presidential support in their effort to secure a new presidential message. Biographies are also sometimes included within an interest groups request for a presidential message and provide mostly non-sensitive background information about the person being recognized or awarded. White House office correspondence is primarily made between the Office of Public Liaison and Office of Presidential Messages requesting that a presidential message be drafted for an organization on behalf of President Bush.

### **System of Arrangement**

Records that are responsive to this FOIA request were found in one collection area—Bush Presidential Records. As policy, Staff and Office files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of documents and folders processed in response to FOIA 2003-0256-F.
