Scope and Content

The materials in FOIA 2003-0261-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2003-0262-F contains Bush Presidential Records from the White House Office of Records

Management (WHORM) Alphabetical and Subject Files, the White House Advance Office, the White House Office of Chief of Staff, the White House Office of Correspondence, the White House Counsels Office, the Council of Economic Advisers, the White House Office of Intergovernmental Affairs, the White House Office of Media Affairs, the National Security Council, the White House Office of National Service, the White House Office of Policy Development, the White House Office of Public Affairs, the White House Office of Public Events and Initiatives, and the White House Office of Public Liaison. These files consists of letters of correspondence, memoranda, coversheets, notes, distribution lists, newspaper articles, informational papers, published articles, and reports from the public, the Congress, Bush Administration officials, and other various Federal agencies primarily regarding American Middle East peace policy regarding refugee emigration policy. There are letters sent by the members of a variety of Jewish, Muslim, and Christian Interest groups, as well as Senators, Congressman, and civilians expressing concerns and/or support for the Bush Administration's policies in relation to Israeli-Palestinian relationships and the settlement of Jewish immigrants, as well as others that were considered refugees. Unsolicited advice and various viewpoints are routinely provided in these correspondences in hopes of influencing various policies with Israel, as well as Bush Administration policies for peace in the Middle East. Often letters are accompanied by informational papers, newspaper articles, and other case study reports in support of the idea being presented. There are often replies offered by various White House offices defending the Bush administration's policy and giving general thanks for concern and inquiry. The drafting of these replies among the various executive branch offices generates routine administrative paperwork, such as the mentioned above memoranda, coversheets, notes, and distribution lists. These replies were most often written by various members of the State Department and the Office of Legislative Affairs and then were generated to White House Offices as robotic letters to provide general, non-sensitive responses to the variety of issues related to the Middle East. NSC and Public Liaison files within this collection typically relate to the discussions and implementation of U.S. Policy on Soviet Emigration.

System of Arrangement

Records that are responsive to this FOIA request were found in three collection areas—Bush Presidential Records: WHORM Alphabetical Files; Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical and WHORM Subject Files are processed at the document level; whereas, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that an asterisk "*" indicates that the category is entirely processed and open.
