Inventory for FOIA Request 2003-0345-F

Records on Australia

Extent

849 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, January 2009. Previously restricted materials are added as they are released.

Scope and Content [Provides information about the nature of the materials and activities reflected in the unit being described to **enable users to judge its potential relevance**. Include the functions, activities, transactions, and processes that generated the materials; the documentary forms or intellectual characteristics (e.g. minutes, diaries, watercolors, documentaries) of the materials; the content dates (time periods) covered by intellectual content; geographic areas and places to which the records pertain; subject matter to which the records pertain, such as topics, events, people, and organizations; and any other information that assists the user in evaluating relevance of the materials.]

The materials in FOIA 2003-0345-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2003-0345-F contains materials from agencies and individuals including the White House Office of Records Management and the National Security Council.

The White House Office of Records Management (WHORM) Alphabetical Files contain letters from the general public concerning President Bush's visit to Australia in January of 1992 and agricultural trade related to Australia.

The WHORM Subject File categories contain correspondence; memoranda; news clippings; and brochures from the general public, Congress, and the Bush administration. WHORM Subject File CO009 concerns Australia, including the Export Enhancement Program (EEP) and information on the United States trade policies.

The Staff and Office Files contain correspondence, memoranda, and publications maintained by individual staff members and offices. The files of Douglas H. Paal concern President Bush's trip to Australia in January of 1992 and trade policies in agriculture. The NSC Numbered Documents contains information regarding the EEP, correspondence between President Bush and Prime Minister Hawke and Prime Minister Keating, correspondence between Brent Scowcroft and Australian Leaders.

The Bush Vice Presidential Name Files contain correspondence to Vice President Bush from Australians recommending various travel recommendations, and recommendations of tourist attractions in Australia.

The Bush Vice Presidential Subject Files contain correspondence, memoranda, and schedule information regarding the Vice Presidential trip to East Asia, Australia and New Zealand: April 22, 1982–May 12, 1982.

The Bush Vice Presidential Staff and Office Files contain correspondence, memoranda, schedules, and news articles regarding the Vice Presidential trip to East Asia, Australia and New Zealand: April 22, 1982–May 12, 1982, appointment request from multiple Australian politicians to Vice President Bush's office.

Dan Quayle Vice Presidential Staff and Office Files contain correspondence, memoranda, schedules, and news articles regarding the Vice Presidential trip to Australia, Indonesia, Singapore, and Thailand during April 24, 1989 to May 5, 1989. The records also contain correspondence and schedules for meetings with prominent Australians visiting the United States.

System of Arrangement

Records that are responsive to this FOIA request were found in five collection areas—Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: WHORM Alphabetical Files; Bush Presidential Records: Staff and Office Files; Bush Vice Presidential Records: Staff and Office Files; and Quayle Vice Presidential Records: Staff and Office Files. As policy, WHORM Subject and WHORM Alphabetical Files are processed at the document level; whereas, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 2003-0345-F.
