Scope and Content

The materials in FOIA 2003-0370-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

This request contains materials related to the North Atlantic Treaty Organization (NATO) Summit meeting

held in London, England in July 1990.

(A significant majority of the records in this request have been closed due to national security restrictions. These records will be added to the request if and when they are released.)

The Staff and Office Files contain press briefing transcripts and press releases; drafts and final copies of the London Declaration; cables between President Bush and other NATO heads of state regarding the proposed London Declaration and its subsequent implementation; papers, proposals, and reports pertaining to Conventional Forces in Europe [CFE] negotiations between NATO and the Soviet Union/ Warsaw Pact nations; and schedules and planning materials for the President's trip to London for the summit meetings.

System of Arrangement

Records that are responsive to this FOIA request were found in one collection area—Bush Presidential Records: WHORM Staff and Office Files. As policy, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 2003-0370-F.
