Inventory for FOIA Request 2003-1388-F

Selected records on the Uruguay Round—General Agreement on Trade and Tariffs (GATT) Negotiations

Extent

64 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, December 2008. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 2003-1388-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2003-1388-F contains materials from agencies and individuals concerning the Uruguay Round of Multilateral Trade Negotiations held under the auspices of the General Agreement on Tariffs and Trade (GATT). The negotiations, driven by the United States, which began in September 1986 at Punta del Este, Uruguay, attempted to commit nearly 100 countries, including the European Community and Japan,

to principles of free and fair trade based on enforceable international rules.

System of Arrangement

Records that are responsive to this FOIA request were found in one collection area—Bush Presidential Records: Staff and Office Files. As policy, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 2003-1388-F.
