Inventory for FOIA Request 2005-0336-F

Records on the Office of Science and Technology Policy (OSTP) [Bush Presidential]

Extent

1182 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, January–June 2010. Previously restricted materials are added as they are released.

Related Collections

Related material may be found in FOIA request 2005-0334-F entitled "President's Council of Advisors on Science and Technology (PCAST)," 2005-0335-F entitled "President's Council of Advisors on Science and Technology (PCAST)—Quayle Vice Presidential Records," 2005-0337-F entitled "Office of Science and Technology Policy (OSTP)—Bush Vice Presidential Records," and 2005-0338-F entitled "Office of Science and Technology Policy (OSTP)—Quayle Vice Presidential Records."

Scope and Content

The materials in FOIA 2005-0336-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials. FOIA 2005-0336-F contains cover sheets, correspondence, charters, congressional bills, executive orders, meeting agendas, minutes, presidential remarks, press releases, printed material, proposals, reports, and speeches.

These materials consist of various types of White House or agency cover sheets, which route other correspondence, and correspondence between White House staff, OSTP and PCAST staff, members of Congress, and citizens related to science and technology topics such as critical technologies, commercialization of technology, economic competitiveness, global change research (particularly the United Nations Conference on Environment and Development) , international science and technology cooperation, math and science education, science and technology research, and technology transfer. The administrative documents relate to the science and technology research budgets, the establishment of OSTP and the President's Council of Advisors for Science and Technology (PCAST), nomination and confirmation of OSTP and PCAST members, staff appointments and other personnel matters, awards, meetings, and the charters for OSTP, PCAST, and related subcommittees and working groups.

Also included are congressional bills, testimony to Congress by OSTP members, presidential remarks, and executive orders related to important science and technology issues such as American Technology Preeminence, US Competitiveness, critical technologies, global climate change, high performance computing superconductivity, and the President's strategy for improving math and science education.

The enclosed reports are from various committees, such as the National Critical Technologies Panel and the Committee on International Science, Engineering and Technology (CISSET), and relate to the impact of science and technology on American Diplomacy, National Security, and the American Standard of living, among other topics. Printed materials, press releases, and speeches by D. Allan Bromley and other OSTP and PCAST members are included which deal with President Bush's environment and education initiatives, and science and technology accomplishments of the Bush Administration.

A significant amount of material responsive to this FOIA is contained in the files of D. Allan Bromley (Assistant to the President for Science and Technology and Director of the OSTP), including records related to other councils and organizations in which Bromley participated, such as the Federal Coordinating Council for Science, Engineering, and Technology (FCCSET), the President's Council of Advisors on Science and Technology (PCAST), the Domestic Policy Council (DPC), and the Carnegie Group. The files of the Office of Science and Technology Policy, including the files of D. Allan Bromley, Colonel John O'Neil (Senior Policy Analyst), and Michelle Van Cleave (General Counsel and Assistant Director for National Security Affairs), are included in their entirety.

It should be noted that many of the documents listed here are security classified and have been closed under the restrictions of the Freedom of Information Act.

System of Arrangement

Records that are responsive to this FOIA request were found in the Bush Presidential Records: Staff and Office Files collection area. As policy, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

Staff and Office Files are arranged alphabetically by office. Within the records of the Office of Science and Technology Policy, the records of Allan Bromley are arranged alphabetically within the following subseries: Correspondence Files [Bromley], Correspondence Files [White House], Correspondence Files [External Affairs], Administration Files, [Bromley] Personal Files, Education Files, General Science Files,

Global Climate Change Files, Global Climate Change Files-Conferences/Meetings, International Files, International Files-Country Files, Laboratory Files, National Security Files, Organization Files-FCCSET, Organization Files-NASA, Organization Files-NSF, Organization Files-PCAST, Organization Files-Government Organizations, Organization Files-Non-Government Organizations, Presidential Priorities Files, and Miscellaneous Files. The John O'Neil Files are arranged alphabetically within the following subseries: Russia Subject Files, Former Soviet Union Subject Files, Government Organizations, Reports and Publications Files, and Telecommunications Files. The Publications are arranged alphabetically within the following subseries: OSTP Files, Reports and Publications Files, and Miscellaneous Files. The Michelle Van Cleave Files are arranged alphabetically within the following subseries: Correspondence Files, Speech Files, Executive Orders Files, General Accounting Office Files, and Reports and Publications Files.

The following is a list of folders processed in response to FOIA 2005-0336-F.
