Inventory for FOIA Request 2005-0338-F

Records on the Office of Science and Technology Policy (OSTP) [Quayle Vice Presidential]

Extent

5 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, June 2010. Previously restricted materials are added as they are released.

Related Collections

Related material may be found in FOIA request 2005-0334-F entitled "President's Council of Advisors on Science and Technology (PCAST)," 2005-0335-F entitled "President's Council of Advisors on Science and Technology (PCAST) – Quayle Vice Presidential Records," 2005-0336-F entitled "Office of Science and Technology Policy (OSTP)," and 2005-0337-F entitled "Office of Science and Technology Policy (OSTP) – Bush Vice Presidential Records."

Scope and Content

The materials in FOIA 2005-0338-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials. FOIA 2005-0338-F contains correspondence between White House staff and OSTP staff related to meetings between VP Quayle and D. Allan Bromley, the natural disaster reduction strategy, and technology transfer. Also included are reports which discuss reducing the impacts of natural hazards, Wetlands preservation and the Superconducting Super Collider.

It should be noted that many of the documents listed here are security classified and have been closed under the restrictions of the Freedom of Information Act.

System of Arrangement

Records that are responsive to this FOIA request were found in one collection area—Quayle Vice Presidential Records: Staff and Office Files. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of folders processed in response to FOIA 2005-0338-F.
