Inventory for FOIA Request 2005-1029-F [partial]

Records on Presidential Acquisitions (PA) series of the National Security Council Executive Secretariat—1989

Extent

1839 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, April 2012. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 2005-1029-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2005-1029-F contains correspondence from private citizens, business and industrial leaders to the President; routine transmittal memoranda between Presidential staff members and/or the President; records of conversations between the President and foreign Heads of State; NSC profile sheets describing

official meetings or social events, including dinners, funerals, State visits; facsimile transmittal coversheets; charts and tables depicting public information on economic data of individual countries, etc.; congratulatory telephone and cable communications; public Presidential statements and speeches; schedule proposals, meeting arrangements for the President with foreign Heads of State, Foreign Ministers, Defense Ministers, Ambassadors, U.S. members of Congress and private citizens; travel arrangements/schedules; press releases; presidential press statements; government published Congressional reports and Presidential Determinations; reports to the Speaker of the U.S. House and the President of the U.S. Senate; copies of newspaper articles on international current events, foreign policies, etc.; and briefing books for Presidential trips abroad

System of Arrangement

Records that are responsive to this FOIA request were found in one collection areas—Bush Presidential Records: Staff and Office Files. As policy, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of documents and folders processed in response to FOIA 2005-1029-F.
