#### **Provenance**

Official records of George Bush's presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### **Processed By**

Staff Archivists, March 2013. Previously restricted materials are added as they are released.

#### **Scope and Content**

The materials in FOIA 2005-1029-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. This finding aid only lists those documents from 1991. There are other finding aids that list the documents from 1989, 1990, 1992 and 1993. Researchers should consult the archivist about related materials.

FOIA 2005-1029-F contains correspondence from private citizens, business and industrial leaders to the

President; routine transmittal memoranda between Presidential staff members and/or the President; records of conversations between the President and foreign Heads of State; NSC profile sheets describing official meetings or social events, including dinners, State visits; facsimile transmittal coversheets; charts and tables depicting public information on economic data of individual countries, etc.; congratulatory telephone and cable communications; public Presidential statements and speeches; schedule proposals, meeting arrangements for the President with foreign Heads of State, Foreign Ministers, Defense Ministers, Ambassadors, U.S. members of Congress and private citizens; travel arrangements/schedules; press releases; presidential press statements; government published Congressional reports and Presidential Determinations; reports to the Speaker of the U.S. House and the President of the U.S. Senate; copies of newspaper articles on international current events, foreign policies, etc.; briefing books for Presidential trips abroad and telephone or meeting conversation records between the President and Foreign Heads of State.

### **System of Arrangement**

Records that are responsive to this FOIA request were found in one collection areas—Bush Presidential Records: Staff and Office Files. As policy, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing.

The following is a list of documents and folders processed in response to FOIA 2005-1029-F [1991].
