### Inventory for FOIA Request 2006-0040-F

## Records on Strategic Defense Initiative (SDI)

#### **Extent**

538 folders

#### **Access**

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### **Copyright**

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Provenance**

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### **Processed By**

Staff Archivists, September 2010. Previously restricted materials are added as they are released.

#### **Related Collections**

Related material may be found in FOIA requests 1999-0093-F "Space Policy (United States)", 1999-0302-F "Strategic Arms Reduction Treaty (START) (Selected Files)", and 2000-1390-F "Strategic Arms Reduction Treaty (START) (Selected Files)", as well as records under the heading "Strategic Defense Initiative (SDI) at the Ronald W. Reagan Presidential Library.

#### **Scope and Content**

The materials in FOIA 2006-0040-F are a selective, not necessarily all inclusive, body of documents

responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2006-0040-F contains materials from agencies and individuals responsible for the research, development, and deployment of the various aspects of the Strategic Defense Initiative (SDI) including the National Security Council, the National Aeronautics and Space Administration (NASA), Department of Defense (primarily, the Strategic Defense Initiative Organization), and the United States Congress. Also included are records from private organizations and individuals expressing support or opposition to the program. (A portion of the records date to the Ronald Reagan Administration.)

The WHORM Subject File categories contain correspondence, memoranda, reports, and congressional testimony of administration officials related to the design of various aspects of the SDI program as well as budget discussions regarding the financing of SDI research and deployment. The Bush Vice Presidential portion of these files contain a great deal of correspondence from school children voicing their concern and opposition to the program, speeches by President Reagan, and speaking invitations from various organizations and interest groups for Vice President Bush to promote SDI.

The Staff and Office Files contain memoranda relating to public relations/ affairs materials seeking support for SDI, foreign travel authorization and materials for administration officials attending defense seminars and meetings with U.S. allies and Russia, National Security Council meetings regarding SDI development and deployment, and Reagan-era documents relating to SDI funding and general design concepts; discussion papers, memoranda, and correspondence with foreign leaders regarding the shift during the Bush Administration toward theatre defense against limited ballistic missile strikes; National Space Policy Directives; reports on Strategic Defense planning and progress such as "White Paper on Department of Defense and the Congress: Report to the President by the Secretary of Defense" and "End of Tour Report" by Director of the SDIO Ambassador Henry F. Cooper; correspondence between members of Congress and the Executive Office of the President regarding ICBM modernization, SDI funding, the status/ relevance of the ABM [Anti-Ballistic Missile] Treaty in lieu of the dissolution of the Soviet Union and letters from President either urging or thanking members for cooperation on SDI legislation; correspondence and memoranda related to the Defense and Space Talks with the Soviets/ Russians and the United Nations discussions on the peaceful uses of nuclear power in space; cables between President Bush and Russian President Boris Yeltsin regarding cooperation on global defense and space exploration; newspaper articles pertaining to SDI; press releases and materials such as proposed media Q & A's and regarding SDI design and testing; finalized START [Strategic Arms Reduction Treaty] ratification documents; and Presidential statements regarding SDI anniversary and State of the Union address.

**(A significant portion of the records in this request have been closed due to national security restrictions. These records will be added to the request if and when they are released.)**

### **System of Arrangement**

Records that are responsive to this FOIA request were found in five collection areas—Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: Staff and Office Files; Bush Vice Presidential Records: Subject Files; Bush Vice Presidential Records: Staff and Office Files; and Quayle Vice Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "\*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 2006-0040-F.
