Inventory for FOIA Request 2006-0257-F

Records on Disability Civil Rights [Americans with Disabilities Act of 1990] [Bush Presidential]

Extent

806 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, August 2010. Previously restricted materials are added as they are released.

Related Collections

Related material may be found in FOIA request 2006-0280-F entitled "Disability Civil Rights," FOIA request 1998-0253-F entitled "Correspondence between the Bush Administration and Numerous Politicians," FOIA request 1999-0285-F entitled "Civil Rights, Bush Presidential Records," and FOIA request 2001-0827-F entitled "Senator Jesse Helms (R-NC)."

Scope and Content

The materials in FOIA 2006-0257-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2006-0257-F contains materials related to the Americans with Disabilities Act of 1990, which was signed into law July 26, 1990. This legislation expanded Federal civil rights laws to include persons with disabilities. The legislation prohibits discriminations in employment, public services, public accommodations, transportation, and telecommunications.

The Bush Presidential White House of Records Management (WHORM) Alphabetical Files contains correspondence with the White House from the general public expressing concern or favor for the proposed legislation. The WHORM Subject Files contains correspondence, news clippings, memoranda, press releases, draft legislation, report language, draft Attorney General statement, hearing transcripts and testimony, talking points, annual work plan for Americans with Disabilities Act (ADA) work group, options paper, impact analysis, side-by-side comparison, list of meeting attendees, and legislative analysis. Most of the materials are located in the WHORM subject category FG010-03. Also contained in the subject files are materials concerning individuals appointed to positions in the Administration related to disabilities.

The Bush Presidential Records Staff and Office Files contain correspondence, memoranda, notes, draft legislation, reports, talking points, working papers, press releases, fact sheets, and publications maintained by individual staff members and offices. Most of the documents from the White House Counsel's Office cover draft report language, proposed revisions for S.933, and Agency comments regarding proposed rulemaking and implementation of the ADA legislation. The files of Johannes Kuttner, located in the Office of Policy Development, includes letters from Congress and the public, memos, and information from the domestic policy council working group on ADA regarding small business, religious exemption, inter-city bus transit, economic impact analysis, disability legislation strategy and status of House negotiations. Also contained in the staff and office files are materials concerning individuals appointed to positions in the Administration related to disabilities, President and First Lady's participation with various disability groups, the ADA signing ceremony, and the one year commemoration of the ADA.

The Federal Records contain the files of Bonnie Guiton and Ann Wallace, from the Office of Consumer Affairs, concerning trips they made to address disability organizations on the American's with Disabilities Act. Material includes memoranda, news clippings, and copies of their remarks.

System of Arrangement

Records that are responsive to this FOIA request were found in four collection areas—Bush Presidential Records: WHORM Alphabetical Files; Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: Staff and Office Files; and Federal Records. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 2006-0257-F.
