### Inventory for FOIA Request 2006-0620-F

## Records on NSR 3, 4, & 5

#### **Extent**

3 folders, approximately 24 pages

#### **Access**

Collection is open to all researchers. Access to Bush Presidential records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### **Copyright**

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Provenance**

Official records of George Bush's presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### **Processed By**

Staff Archivists, April/2006. Previously restricted materials are added as they are released.

**Related Collections:** Not applicable

#### **Scope and Content**

The materials in FOIA 2006-0620-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials. The material associated with 2006-0620-F was generated by the National Security Council (NSC). The main documents are dated February, 1989 and are NSC policy papers, known as National Security Reviews (NSRs). Those documents that are open at this time consist of NSC routing memos and staff

memos which direct correspondence and NSRs to various staff members.

**System of Arrangement**

Records that are responsive to this FOIA request were found in the collection areas—Bush Presidential Records: White House Staff and Office Files. As policy, Staff and Office files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. WHORM Subject and WHORM Alpha files are processed at the document level. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of documents and folders processed in response to FOIA 2006-0620-F
