Scope and Content

The materials in FOIA 2006-1173-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2006-1173-F contains George Bush Vice Presidential Records that are related to the roll-out ceremony for the first X-29A Forward Swept Wing (FSW), at Grumman Aerospace Naval Weapons Industrial Reserve Plant (NWIRP) in Calverton, New York on August 27, 1984.

These five Vice Presidential Staff and Office Files contain official travel records, notes, correspondence letters, newspaper clippings, fact sheets, and a speech. The travel records pertain to the vice presidential staff members that officially accompanied Vice President George Bush to this event. The notes and correspondence are of a routing nature and primarily consist of the communication involved within the preliminary attempt by Grumman to have Vice President Bush attend and participate in the ceremony. The newspaper clippings and fact sheets accompanied the letters in order to provide background information on the aircraft being celebrated in an effort to display the importance of Vice President Bush participating in the ceremony. The speech within these records was given by Vice President Bush at the ceremony.

System of Arrangement

Records that are responsive to this FOIA request were found in one collection area—Bush Vice Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level; whereas, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of documents and folders processed in response to FOIA 2006-1173-F.
