### Inventory for FOIA Request 2007-0107-F

## Records on Secretary of Education Lauro Cavazos and the Education Summit with Governors of 1989

#### **Extent**

274 folders

#### **Access**

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### **Copyright**

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Provenance**

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### **Processed By**

Staff Archivists, June 2011. Previously restricted materials are added as they are released.

#### **Related Collections**

Related material may be found in FOIA request 1998-0002-F entitled "America 2000 Education Initiative, School Choice, School Funding, Forced Busing, and the National Education Goals".

#### **Scope and Content**

The materials in FOIA 2007-0107-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2007-0107-F contains materials from agencies and individuals including the United States Department of Education, the White House Executive Office of the President, and the National Governors' Association. These records relate to Secretary of Education Lauro Cavazos and the 1989 Education Summit with Governors held at the University of Virginia.

The White House Office of Records Management (WHORM) Alphabetical Files and Subject File categories contain letters from various organizations, government agencies, cabinet members, and private citizens regarding educational issues, as well as letters from constituents regarding Secretary Cavazos's work as Secretary of Education. Also included are newsletters and promotional material from various national education organizations.

The Staff and Office Files contain correspondence, memoranda, and publications maintained by individual staff members and offices. Materials include published articles on education in general as well as the Education Summit in specific; press releases detailing the statements from the Education Summit and overviews of the Education Excellence Act of 1989; the Joint Statement of President's Education Summit with Governors; informational memoranda regarding education issues and topics likely to be discussed at the Education Summit; transmittal notes and cover sheets; agendas from Domestic Policy Council Meetings on Hispanic Education; Education Summit schedules for President and Mrs. Bush, Cabinet members, Governors, staff, and spouses of Governors and Cabinet Members; maps of the University of Virginia and Monticello; menus from a dinner for the Governors at Monticello; hotel bills from the Summit; and Department of Education published reports.

The Bush Vice Presidential Staff and Office Files contain speech cards and notes. These materials consist of speech cards containing a proposed speech to be given by Vice President Bush on the occasion of the swearing-in of Secretary Cavazos in 1988. A handwritten notation on the first card indicates that the speech was not given. Also included is a page of general notes regarding press guidance for the nomination of Secretary Cavazos.

The Federal Records consist of a letter from Bonnie Guiton, Special Adviser to the President for Consumer Affairs, to Chief of Staff John H. Sununu regarding the federal role in education.

### **System of Arrangement**

Records that are responsive to this FOIA request were found in five collection areas—Bush Presidential Records: WHORM Alphabetical Files; Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: Staff and Office Files; Bush Vice Presidential Records: Staff and Office Files; and Federal Records. As policy, WHORM Subject and WHORM Alphabetical Files are processed at the document level; whereas, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "\*" indicates that the document(s) or file(s) was processed systematically or for a previous request.

The following is a list of documents and folders that are responsive to FOIA 2007-0107-F:

## Bush Presidential Records: WHORM Alphabetical Files

### Name

Cavazos, Lauro F., Secretary of Education
