Staff Archivists, August-September 2010. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 2007-0601-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials. FOIA 2007-0601-F contains material related to the 1987 summit meeting between President Reagan and Soviet President Mikhail Gorbachev.

Material responsive to this FOIA consists of correspondence, participant lists, schedules, a press release, and printed material related to various organizational and administrative aspects of the meeting between Reagan and Gorbachev, as well as the breakfast meeting between Vice President Bush and Gorbachev. A thank you letter from Bush to Gorbachev is also included.

It should be noted that a significant number of the documents listed here are security classified and have been closed under the restrictions of the Freedom of Information Act.

System of Arrangement

Records that are responsive to this FOIA request were found in the Bush Vice Presidential Records: Staff and Office Files. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area. Staff and Office Files are arranged alphabetically by office.

The following is a list of folders processed in response to FOIA 2007-0601-F.
