Inventory for FOIA Request 2008-1027-F

Selected Records on the Committee on International Science, Engineering, and Technology (CISET) and Intellectual Property

Extent

3 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, August 2008.

Scope and Content

The materials in FOIA 2008-1027-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

People of interest are:

Ambassador Reginald Bartholomew – Under Secretary for International Security Affairs
Ambassador Frank G. Wisner – Chairman of the Committee on International Science, Engineering, and Technology (CISET)
D. Allan Bromley – Assistant to the President for Science and Technology
Carla Hills – U.S. Trade Representative
James D. Watkins – Secretary of Energy

FOIA 2008-1027-F contains materials from the White House Office of Science and Technology. The Bush Presidential records relate to the Committee on International Science, Engineering, and Technology (CISET) and Intellectual Property. The documents to be opened are a form, memos, and papers. These materials consist of a Document Control form, memos from D. Allan Bromley to Ambassadors Frank Wisner and Reginald Bartholomew regarding a CISET Study of U.S. Objectives for International Science and Technology and to Carla Hills regarding the US.-Indian Science and Technology Agreement, and the papers "U. S. Objectives for International Science and Technology in the Post Cold War Foreign Policy Setting" and "Statement of Roles and Objectives for the Ad Hoc Working Group of the Committee on International Science, Engineering, and Technology on Principles and Guidelines for International Science and Technology."

System of Arrangement

Records that are responsive to this FOIA request were found in one collection area—Bush Presidential Records: Staff and Office Files. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of documents and folders processed in response to FOIA 2008-1027-F.

Bush Presidential Records: Staff and Office Files

Office of Science and Technology

Bromley, D. Allan, Files

International 1992 CISET [Committee on International Science, Engineering, and Technology] [OA/ID 08717]

Int Subj [International Subject] 1992-1993, White House: FCCSET [Federal Coordinating Council for Science, Engineering, and Technology] Committee on International Science, Engineering and Technology [CISET][OA/ID 08722]
