Processed By

Staff Archivists, July 2010. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 2009-0798-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials. FOIA 2009-0798-F contains materials related to correspondence and meetings between the George H.W. Bush administration and the former Presidents of the United States: Ronald Reagan, Jimmy Carter, Gerald Ford, and Richard Nixon as well as their representatives. Materials include declassified National

Security Agency cover sheets which route closed draft letters for the former Presidents between members of the National Security Council.

It should be noted that a significant portion of the documents listed here are security classified and have been closed under the restrictions of the Freedom of Information Act.

System of Arrangement

Records that are responsive to this FOIA request were found in one collection area – Presidential Records: Staff and Office Files. As policy, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of folders processed in response to FOIA 2009-0798-F.
