Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Related Collections**

FOIA requests 1998-0188-F, 1998-0318-F, 2009-0798-F, 2009-0800-F, 2009-0802-F, and 2009-0803-F.

#### **Scope and Content**

The materials in FOIA 2009-0801-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2009-0801-F contains Bush Presidential Records from the White House Office of Records

Management (WHORM) Subject Files, the White House Counsel's Office, the National Security Council (NSC), the White House Office of Policy Development, and the White House Press Office. These files consist of fax cover sheets and NSC profile sheets used to briefly describe the content of attached materials and provide handling instructions; letters between Bush administration staff, President Nixon's staff and legal counsel for the Senate Select Committee on POW/MIA over the release of documents from the Nixon administration for its investigations; memoranda among members of the President's staff discussing responses to letters from the Senate committee noted above ; notes passing along phone messages or proposed changes to draft letters; and routing slips tracking the routine passing of documents through the hands of administration staff. Records released from the National Security Council files within this request primarily consist of profile and cover sheets, which usually describe the process of drafting foreign policy update letters to President Nixon, as well as to the other former Presidents, during the Bush Administration that have been closed for National Security classification or other FOIA exemptions. Materials closed for National Security may be requested for Mandatory Review every two years.

**System of Arrangement**

Records that are responsive to this FOIA request were found in two collection areas—Bush Presidential Records: WHORM Subject Files and Bush Presidential Records: Staff and Office Files. As policy, WHORM Subject Files are processed at the document level; whereas, Staff and Office Files are processed at the folder level; i.e. individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that an asterisk "\*" indicates that the category is entirely processed and open.
