#### **Scope and Content**

The materials in FOIA 2010-0577-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2010-0577-F contains materials related to the Nuclear Weapons Deployment Authorization for FY 1991 and FY 1992. They are contained primarily in the Staff and Office files of the National Security Council (NSC). Although these files are listed, it should be noted that portions of these documents are security classified and have been closed under the restrictions of the Presidential Records Act and the Freedom of Information Act. These records will be added if and when they are released.

Currently released documents include non-classified, routine documents. This material consists of blank tab dividers separating other documents; and cover sheets, such as unclassified NSC Profile Sheets and Staffing forms, which forward other materials.

### **System of Arrangement**

Records that are responsive to this FOIA request were found in two collection areas—Bush Presidential Records: Bush Presidential Records: Staff and Office Files; and Quayle Vice Presidential Records: Staff and Office Files. As policy, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.
