### Inventory for FOIA Request 2010-1890-S

## Records on WHORM Subject File AT Atomic - Nuclear Energy

#### **Extent**

70 folders

#### **Access**

Collection is open to all researchers. Access to Bush Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### **Copyright**

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Provenance**

Official records of George Bush's presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### **Processed By**

Staff Archivists, July 2010. Previously restricted materials are added as they are released.

#### **Scope and Content**

The materials in FOIA 2010-1890-S are a systematically processed body of documents from the White House Office of Records Management (WHORM) Subject File category AT. The documents to be opened are cover sheets, correspondence, reports and papers, printed material, and proposed House and Senate bills. These materials consist of cover sheets which route other documents as well as correspondence between White House staff, the Department of Energy, the US Nuclear Regulatory Commission, members of Congress, state and local government officials, special interest groups, and citizens. The correspondence from Members of Congress relates to nuclear power plants, nuclear waste management, and environmental and safety concerns. Correspondence from state and local governments, special

interest groups, and private citizens expresses support or opposition for a comprehensive nuclear test ban, retiring nuclear weapons production facilities, federal-state cooperation for Department of Energy projects, and the operation of various nuclear power plants around the country.

The reports and papers were created by both government and non-government entities. Reports from government agencies include the Annual Report to Congress on US Nuclear Non-Proliferation Activities, a Department of Energy report on the Domestic Uranium Mining and Milling Industry, and bulletins from the US Nuclear Regulatory Commission. Also included are reports from non-government entities such as the Nuclear Power Oversight Committee, the Institute of Nuclear Power Operations, and the Energy Research Group related to domestic nuclear power and nuclear waste programs.

The printed material consists of newspaper and magazine articles related to nuclear power reactors, radioactive waste dumping, and arms reductions. The proposed House and Senate Bills include drafts of, and correspondence related to, the International Plutonium Control Act, Atomic Energy Amendments Act, Sanctions for Assisting Foreign Countries to Acquire a Nuclear Explosive Device, Nuclear Testing Moratorium Act, and Federal Facility Environmental Compliance Act.

### **System of Arrangement**

Records that are responsive to this FOIA request were found in Bush Presidential Records: WHORM Subject Files.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

The following is a list of folders processed in response to FOIA 2010-1890-S.
