Scope and Content

EXAMPLE: The materials in FOIA 2010-2614-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2010-2614-F contains materials pertaining to the negotiations for the Conventional Forces in Europe (CFE) Treaty between NATO and the Warsaw Pact. The CFE Treaty sought to limit the conventional military forces and armaments in Europe in order to prevent armed conflict and promote stability.

The WHORM Subject File categories contain correspondence from the general public and Congress to the President voicing support for the negotiations and between President Bush and NATO/ foreign heads of state discussing CFE-related issues and goals. Also included are personnel files related to the appointment of ambassadors to serve as heads of the U.S. delegation to CFE negotiations.

The Staff and Office Files contain correspondence between the President and NATO and Warsaw Pact heads of state regarding CFE issues; reports and issue papers regarding NATO/ Warsaw Pact military equipment and strength in the European theatre; weekly reports/ summations of negotiation progress (both intra-NATO and with the Warsaw Pact delegation); drafts of the CFE treaty text; and presidential remarks and speeches regarding U.S. goals for the outcome of negotiations.

(A portion of the records in this request have been closed due to national security restrictions. These records will be added to the request if and when they are released.)

System of Arrangement

Records that are responsive to this FOIA request were found in two collection areas—Bush Presidential Records: WHORM WHORM Subject Files and Bush Presidential Records: Staff and Office Files. As policy, WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 2010-2614-F.
