Scope and Content

FOIA 2011-0003-F includes all records from the European and Soviet Directorate Series of the National Security Council Files. This collection consists of briefing books international summits and presidential trips. The briefing books contain correspondence, papers, and lists. The correspondence consists of declassified internal National Security Council Staff correspondence routing classified documents and correspondence from Congress, such as a letter from a senator addressing economic issues to be discussed at the Malta Summit. Unclassified papers provide background on summit events and on issues such as the environment and the U.S. economy to be discussed at the Paris Economic Summit, and the UN budget and Peacekeeping missions to be discussed at the United Nations General Assembly. Also included are participant lists for various meetings, comments to the press, and speeches.

It should be noted that many of the documents listed here have been closed for National Security classification and/or other exemptions of the Freedom of Information Act.

System of Arrangement

Records that are responsive to this FOIA request were found in the following collection area: Bush Presidential Records: Staff and Office Files. As policy, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area. Staff and Office Files are arranged alphabetically by office.

The following is a list of folders processed in response to FOIA 2011-0003-F:
