Inventory for FOIA Request 2011-2569-F

Selected Records on the Economy

Extent

104 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, December 2011. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 2011-2569-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials. The majority of records are Bush Presidential Records.

The Bush Presidential Staff and Office Files include memoranda, fact sheets, correspondence, papers, talking points, and printed material. maintained by individual staff members and offices. These materials

consist of routine memoranda between White House staff members to the President and other staff members regarding such topics as unemployment statistics; banking reform, mortgages, and low income housing tax credit. Also included are standard memos concerning meetings with industry business leaders, as well as a weekly report regarding upcoming economic and banking issues and related legislative activity. Fact sheets include the President's economic growth agenda, tax bill veto, and agriculture policy. Correspondence contains public mail to the White House staff and standard response letters on economic issues such as wages, budget deficit, capital gains, taxes, and affordable housing plan. Papers include IMF working paper on fiscal policy, OMB Circular A-94 on benefit-cost analysis of federal programs, guidance on benefit-cost analysis for legislative proposals, and options paper on increasing saving and investment. Talking points includes economic subjects such as U.S. manufacturing performance and trade, family tax allowance, and the minimum wage proposal. Printed material contains news articles on the economy, including budget issues, job market, and fiscal legislation. Also included are published reports on employment and the workforce, as well as the 1992 Report to Congress: "Building a Competitive America."

The Bush Vice Presidential Staff and Office Files include memoranda, fact sheets, printed material, and talking points. These materials consist of routine memoranda between White House staff members to the Vice President and other staff members regarding such topics as financial markets report and job creation. Fact sheets on the record of the Reagan-Bush administration show overall improvement in economic growth. Talking points concern agriculture economic subjects such as deficiency payments, farm credit system, and general farm policy. Printed material consists of newspaper articles on the economic issues such as the budget, taxes, and employment figures.

The Quayle Vice Presidential Staff and Office Files include a news release and printed material. The news release is by the Cato Institute on the publication of a paper regarding the economy in the 1980s. The printed material consists of the Cato Institute *Policy Analysis* publication from the June 1, 1992 issue entitled "America: What Went Right."

System of Arrangement

Records that are responsive to this FOIA request were found in three collection areas—Bush Presidential Records: Staff and Office Files; Bush Vice Presidential Records: Staff and Office Files; and Quayle Vice Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 2011-2569-F.

Bush Presidential Records: Staff and Office Files
