### Inventory for FOIA Request 2011-2575-F

## Selected Records on John Sununu

#### **Extent**

49 folders

#### **Access**

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### **Copyright**

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Provenance**

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### **Processed By**

Staff Archivists, February 2012. Previously restricted materials are added as they are released.

#### **Scope and Content**

The materials in FOIA 2011-2575-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

The Bush Presidential Staff and Office Files include memoranda, correspondence, printed material, talking points, lists, and reports maintained by individual staff members and offices. Memoranda consists of routine memos between White House staff members to the President and other staff members regarding such topics as regulatory reform, pending legislation, proposed meetings, and weekly activity reports of

the Domestic Policy Council (DPC) and the Economic Policy Council (EPC). Correspondence consists of letters from business leaders and members of Congress regarding current domestic issues such as tax reform, education, national energy strategy, and climate change.

Printed material includes news articles on current events concerning domestic policy and economic issues. Also included are editorials on the importance of deregulation both domestically and internationally, as well as transcripts of Sununu television interviews. Talking points relate to Cabinet breakfast meetings. Lists consist of current and proposed EPC and DPC issues and working groups. Press release regards the Educational Excellence Act of 1989. Reports include national transportation policy and the status of current education reform.

The Bush Vice Presidential Staff and Office Files include memoranda and lists. The correspondence consists of a transmittal letter to Congress regarding Section 340 Fair Housing Lending Study. The memoranda consist of multiple copies of routine memos between White House staff members to the Vice President. These are standard briefing memos for the Vice President's meeting with Governor John Sununu on July 28, 1988, as well as the standard approved Vice Presidential activity memos for the same meeting. Lists of the meeting participants are also included.

### **System of Arrangement**

Records that are responsive to this FOIA request were found in two collection areas—Bush Presidential Records: Staff and Office Files and Bush Vice Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of documents and folders processed in response to FOIA 2011-2575-F.
