Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, April 2012. Previously restricted materials are added as they are released.

Related Collections

Related material may be found in FOIA requests 2011-2567-F (Alan Greenspan), 2011-2571-F (The Federal Reserve), and 2011-2573-F (John B. Taylor).

Scope and Content

The materials in FOIA 2011-2577-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2011-2577-F contains materials created by staff members on the Council of Economic Advisors (CEA). An agency within the Executive Office of the President, the CEA is responsible for advising the President on domestic and economic policies. The Council bases its recommendations and analysis on economic research and empirical evidence. It is comprised of a chairman and two members and is supported by a staff of professional senior economists, staff economists, research assistants, and a statistics office.

The Staff and Office Files contain fax cover sheets, memos, letters, handwritten notes, papers, fact sheets, lists, charts and tables, press statements, newspaper and magazine clippings, speeches, and publications. These documents were housed in the files of David Bradford, J. French Hill, Gary Saxonhouse, Richard Schmalensee, John B. Taylor, and Paul Wonnacott. Diverse topics that are the subject of these documents include a risk assessment executive order, tax credit, the Competitiveness Policy Council, budget proposals, health insurance reform, investment tax credit, deregulation initiatives, consumer price indices, energy legislation, long range budget forecasts, economic developments and prospects, Working Group on Economic Policy meetings, money stock levels, Federal Reserve open market reports, mid-session reviews of the federal budget, budget reform, and treasury auction overhaul measures. Also addressed in this FOIA are pending legislation related to the marine industry, environmental protection, contingent valuation, market-based policy decisions, income versus consumption taxation, international trade, statements of the Bush Administration policies, industrial production, clinical lab improvements, bank lending, forest preservation, wage and employment trends, highway and mass transit programs, rural development, and development of a national energy policy.

System of Arrangement

Records that are responsive to this FOIA request were found in one collection area—Bush Presidential Records: Staff and Office Files. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of documents and folders processed in response to FOIA 2011-2577-F.
