#### **Scope and Content**

The materials in FOIA 2012-0121-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2012-0121-F contains two exclusively selected records by the FOIA requestor. The first is from the White House Office of Records Management (WHORM) subject file category CO165 (Russia). The Second is from the National Security Council's (NSC) Chronological Files. These two inter-related files consist of

non-sensitive letters of correspondence, coversheets, distribution lists, cover memos, and an unsolicited informational paper written by Harvard Professor Jeffrey Sachs regarding his stance on promoting economic reform in the Soviet Union. Senator Ted Stevens received this paper from Professor Sachs and then forwarded it to General Brent Scowcroft with a letter explaining the attached paper. General Scowcroft responded with gratitude to Senator Stevens. General Scowcroft retained and filed a copy this paper and correspondence in the NSC PRS Chronological File. Coversheets and distribution lists are present for routine tracking of the materials by the NSC and White House staffs.

Records that are responsive to this FOIA request were found in one collection areas—Bush Presidential Records. As policy, WHORM Subject Files and NSC Chronological Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.
