Inventory for FOIA Request 2012-0637-F

Records on South Africa

Extent

452 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, August 2012. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 2012-0637-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Related material may be found in FOIA requests 1999-010-F entitled, "South Africa" and 2010-2617-S, "WHORM Category CO001-01 (Africa)". Researchers should consult the archivist about additional related materials.

FOIA 2012-0637-F contains materials related to US policy towards South Africa, specifically those economic/trade and diplomatic policies aimed at encouraging the end of Apartheid and the pursuit of

other governmental reforms in that country, allowing for greater popular participation and representation in South African government and society.

The White House Office of Records Management (WHORM) Alphabetical Files contain correspondence from citizens and private interest groups urging support for or discouraging US involvement South African affairs, such as ending Apartheid.

The WHORM Subject File categories contain correspondence and memoranda similar to that of the WHORM Alphabetical Files, but also include letters from heads of state, the US Congress, private citizens, and interest groups. These materials also contain memoranda and personnel files related to the appointment of US ambassadors to South Africa.

The Staff and Office Files contain correspondence similar to the records mentioned above; press releases announcing various changes in US-South African relations pertaining to economic and trade sanctions placed upon the latter; memoranda and meeting minutes related to National Security Council, Policy Coordinating Committees, and Department of State meetings discussing the sanctions and South African progress towards ending Apartheid; schedules and itineraries detailing visits to the US by South African leaders F. W. de Klerk, Nelson Mandela, and Managosuthu Buthelezi; Congressional testimony by government officials detailing efficacy of the sanctions; personnel files of ambassador appointees; National Security Review-15 (South Africa); and memoranda related to foreign travel by US officials.

System of Arrangement

Records that are responsive to this FOIA request were found in eight collection areas—Bush Presidential Records: WHORM Alphabetical Files; Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: Staff and Office Files; Bush Vice Presidential Records: Name Files; Bush Vice Presidential Records: Subject Files; Bush Vice Presidential Records: Staff and Office Files; Quayle Vice Presidential Records: Staff and Office Files; and Federal Records. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "*" indicates that the category is entirely processed and open.

The following is a list of documents and folders processed in response to FOIA 2012-0637-F.
