Inventory for FOIA Request 2012-1931-F

Selected Records on Trade with Japan and Korea

Extent

79 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, June 2012. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 2012-1931-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of Japan/Korea trade, the Structural Impediments Initiative (SII), and the Korean FSX Program. Researchers should consult the archivist about related materials.

FOIA 2012-1931-F contains correspondence, papers and reports, press releases, printed material and speeches maintained by individual staff members and offices. The Internal White House correspondence relates to administrative matters, such as travel and meeting arrangements. External correspondence

includes letters from Congressman offering opinions and advice on topics such as the FSX agreement with Japan, the US-Japan trade imbalance, and other trade related issues. Letters from the private American industry address access to Japanese markets and other trade concerns. Enclosed press releases contain joint statements by the US and Japanese governments on liberalization of trade, energy cooperation, and market access agreements. White House press releases address trade liberalization and intellectual property rights. United States Trade Representative (USTR) press releases relate to tariffs, value-added networks, and software legislation.

System of Arrangement

Records that are responsive to this FOIA request were found in three collection areas—Bush Presidential Records: Staff and Office Files; Bush Vice Presidential Records: Staff and Office Files; and Quayle Vice Presidential Records: Staff and Office Files. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

Related Collections

Related material may be found in FOIA request 1999-0581-F entitled "U.S.-Japan Structural Impediments Initiative (SII)," and FOIA request 1999-058221-F entitled "U.S.-Japan Trade Relations."

The following is a list of documents and folders processed in response to FOIA 2012-1931-F
