### Inventory for Systematic Request 2013-1221-S

## Records on National Narcotics and Border Interdiction System Files

#### **Extent**

301 folders

#### **Access**

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### **Copyright**

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Provenance**

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### **Processed By**

Staff Archivists, June 2014. Previously restricted materials are added as they are released.

#### **System of Arrangement**

Records that are responsive to this systematic project were found in one collection area—Bush Vice Presidential Records: Staff and Office Files. As policy, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

## Scope and Content

The materials in Case Number 2013-1221-S are a systematically processed body of documents from the files of the National Narcotics Border Interdiction System (NNBIS). The NNBIS was created by President Reagan on March 23, 1983. Directed by the Vice President, the mission of the NNBIS was to increase the effectiveness and efficiency of US drug interdiction efforts by increasing inter-agency cooperation at the federal, state, and local levels, increasing the amount of assistance rendered by DOD in drug enforcement, making improvements in intelligence programs in support of interdiction, and meshing international interdiction efforts with US agency efforts.

The Staff and Office Files contain correspondence, press releases, printed material, remarks, and reports.

It should be noted that many of the documents listed here have been closed for National Security classification and/or other exemptions of the Freedom of Information Act.

The following is a list of documents and folders processed in response to Case Number 2013-1221-S.
