Inventory for Systematic Request 2017-0355-S

Records of Paul Wonnacott, Council of Economic Advisers

Extent

23 boxes

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, December 2016. Previously restricted materials are added as they are released.

System of Arrangement

Records for this systematic project were found in the following collection area: Bush Presidential Records: Staff and Office Files. As policy, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

Related Collections

Related material may be found in FOIA request 1999-0062-F entitled "North American Free Trade Agreement," FOIA request 1999-0581-F entitled "U.S.-Japan Structural Impediments Initiative (SII)," FOIA request 1999-0582-F entitled "U.S.-Japan Trade Relations," and FOIA request 2011-2577-F entitled "Selected Records of The Council of Economic Advisers."

Scope and Content

The materials in 2017-0355-S are a systematically processed body of documents created and maintained by Paul Wonnacott, Council of Economic Advisers. These records discuss the economic implications of various domestic issues (e.g. antitrust enforcement, employment, energy strategy, health care, income mobility, inflation, regulation) and international issues (e.g. trade, financial aid).

The Staff and Office Files contain correspondence, press releases, printed material, remarks, reports, and talking points. Internal correspondence provides views on proposed legislation/programs and the national economic outlook. It also addresses domestic and international economic issues such as antitrust enforcement policy, employment, income mobility, international aid, maritime shipping, NAFTA, national energy strategy, quotas, regulatory reform, taxes, technical assistance to Central and Eastern Europe, trade, and the Uruguay Round. Correspondence with Congress and private citizens addresses issues such as import quotas, international aid, foreign investment in the United States, and trade.

White House press releases discuss the benefits and costs of legislative proposals, foreign assistance, trade agreements, the national energy strategy, and the export enhancement program. A joint EC/US press release discusses the Uruguay Round Negotiations. Printed material consists of clippings on issues such as recession, economic forecasting, international aid, trade, income mobility, income distribution, maritime policy, and trade plans. Remarks by Paul Wonnacott address the free trade agreement, recession and recovery, and US economic performance and prospects. Remarks by other administration officials address maritime policy and other economic issues.

Government reports provide information on the state of the US economy, macroeconomic analysis of legislative proposals, dynamic review estimate, antitrust enforcement guidelines, US assistance for Central and Eastern Europe, economic assumptions for amid-session review of the budget, deregulation, and the Enterprise for the Americas Initiative. Reports from private organizations address economic issues such as US manufacturing and shipping legislation. Talking Points discuss topics such as the poverty rate, recession recovery, commercial maritime policy, US-Japan Semiconductor Arrangement, and the economic outlook for the US economy.

These records are divided into three series:

1. Briefing Books: 4 boxes, arranged chronologically.
2. Subject Files: 15 boxes, arranged alphabetically.
3. TPRG [Trade Policy Review Group] Files: 4 boxes, arranged alphabetically.

The following is a list of documents and folders processed in response to Case Number 2017-0341-S.
