Inventory for FOIA Request 2019-1136-F

Records on D.A.R.E and Drug Education

Extent

50 folders

Access

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George Bush's presidency and vice presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed By

Staff Archivists, December 2021. Previously restricted materials are added as they are released.

System of Arrangement

Records that are responsive to this FOIA request were found in three collection areas—Bush Presidential Records: WHORM Alphabetical Files; Bush Presidential Records: Staff and Office Files; and Bush Vice Presidential Records: Name Files. As policy, WHORM Alphabetical Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject

area.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Scope and Content

The materials in FOIA 2019-1136-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

The WHORM File categories contain internal correspondence to the President regarding law enforcement officials connected with the D.A.R.E. program.

The Staff and Office Files contain cover sheets, correspondence, legislation, notes, printed material, reports and speeches. Cover sheets and internal memoranda route other documents. Correspondence from President Bush addresses the drug control strategy. Internal White House memoranda arrange meetings and discuss topics related to drug prevention. Legislation and bills relate to the national drug policy and drug prevention. Also included are handwritten notes from meetings of the Domestic Policy Council (DPC) on the drug control strategy. Printed material includes promotion materials for the D.A.R.E. program and newspaper clippings. Reports from the DPC provide recommendations on issues such as criminal justice, treatment, education, interdiction, research, information management, and the establishment of a narcotics smuggling and money laundering task force.

The following is a list of documents and folders processed in response to FOIA 2019-1136-F.

Bush Presidential Records: WHORM Alphabetical Files
